

Newsletter no. 5

This is the fifth issue of the newsletter of the Green Power Electronics project. Green PE is a 3-years project funded by the Interreg Baltic Sea Region Programme. Find more information below.

Successful company visits

What are the main tasks of the technology transfer partners? What do the companies gain from company visits? In our interview Janis Stabulnieks from the LTC provides answers to these and further questions.

Get in contact with us

The new application form on the project website enables companies to get in contact with the Green PE partners and addresses all types of power electronic companies from small, medium-sized and large companies.

[Click here for our application form](#)

Keeping up to date with project activities

Our project partners came together for a project meeting in Kaunas, Lithuania to catch up on the latest project achievements.
